**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm a consumer who supports broadband competition. I used to use garbage At&T and I would be overcharged for internet that wouldn't even reach the speeds that I was promised. But I couldn't do anything about it because I had no other option.

I was never happier with my internet than when I made the switch to Sonic, which uses UNEs to compete in the residential marketplace. I am disappointed that i even need to vocalize my support for having more than one or two options for a utility as crucial to everyday life as the internet and to not be subjected to the mercy of grimy AT&T or Comcast and whatever arbitrary price they place on arbitrary speeds that may or may not be provided.

I may as well have given AT&T and Verizon free reign over my bank account. Give me a competitive market for providers and broadband. I'd rather take Sonic or any other competitive local carrier any day of any week of any month of any year.
